June 27, 2023

Prompt...

| How important is spirituality in your life?

Something unexpected question... actually till some stage of my life spirituality depends on religious and the customs and rituals followed by specific religion...but now its not about religion its about the belief on God and the Love...

Proudly I could say I'm not religious but I'm in spiritual... sometimes being atheist too...i
thing being atheist is much and better than religious...right!!! 😊
